

P-WAVE®

The highly fragranced, simple solution to bad odours

Slant6 Urinal Screen

Biodegradable and highly fragranced with less plastic

The all new *Slant6* screen from P-Wave® is another huge step forward in terms of urinal deodorising technology. With the same high fragrance load synonymous with P-Wave® urinal screens, the *Slant6* consistently outperforms other 30 day urinal mats and best of all will keep walls, floors and trousers dry, thanks to the unique virtually 'zero splash' angled bristle design. P-Wave® urinal screens are the only brand in the UK that feature the anti-splash technology on both sides of the screen, so the products cannot be installed incorrectly.

At P-Wave® we're passionate about the environment and that's why, despite being the most fragrant on the market, the *Slant6* has a lower plastic content than any other "highly fragranced" urinal screen and whilst the product is 100% recyclable, it also contains the EcoPure™ additive for faster biodegradation should it find its way to landfill*. As with all P-Wave® urinal screens, billions of beneficial bacteria help deodorise the drain below the surface and *Slant6* is also compatible with waterless urinals.

**Ecopure™ treated products show significantly accelerated biodegradation compared to untreated plastics. The Slant6 is currently being tested under plastic anaerobic biodegradation testing (ASTM D 5511) and after 175 days there is 15.7% biodegradation. We are continuing the test for an additional 555 days and, based on previous lab results, expect the biodegradation will increase to between 50% and 70% biodegraded in 2 years. Final biodegradation results are affected by local environmental conditions.*

At a glance:

- Contains EcoPure® additive – up to 70% product biodegradation within 2 years
- The most effective urinal deodoriser on the market
- More fragrance than any competitor with less plastic (fits more urinals than ever!)
- Hundreds of "splash-eliminating" slant bristles, ensure walls, floors and trousers are kept dry
- "Anyway-up" design, ensures correct installation every time
- Deodorises the drain below the surface with billions of beneficial bacteria
- Compatible with waterless urinals
- Low VOC's
- 100% recyclable
- Easy to Install

Fragrance	Part No.	Colour
Honeysuckle	WZS660HS	○ Clear
Ocean Mist	WZS660OM	● Teal
Mango	WZS660MG	● Orange
Spiced Apple	WZS660SA	● Red
Cotton Blossom	WZS660CB	● Blue
Cucumber & Melon	WZS660CM	● Green

Packed inners of 10 and outer cases of 60.
